PresenceLock™ detects user presence in real time to securely lock the PC upon walkaway

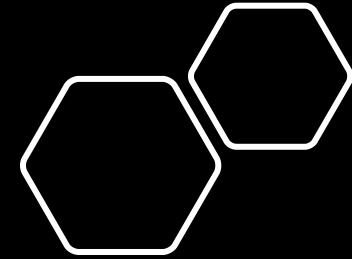

Set detection zones based on distance from sensor

- Simple to program settings: on, off, distance, timing
- Locks the user's PC within seconds after departing workstation

Keyboard solution can be combined with other best-of-the-best solutions in secure authentication: proximity, mobile, hands-free OTP, passkeys

- Prevents an unauthorized person from accessing an active session at a vacant desktop

# Technical Specification

## [Electronics]

### [USB]

Input Voltage Range: 5V

## [Mechanical]

Number of Keys: 108

Key strokes life: 10 million

Key Travel Distance: 2mm

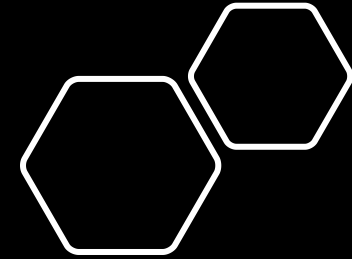

## [Others]

Storage temperature: -40°C to +55°C

Operating temperature: 0°C to +45°C

Operating humidity: 40% to 90%

Dimensions: 447.90\*183.90\*29.54mm
